

1st Announcement of the 10th Multi-GNSS Asia (MGA) Conference

We are pleased to announce that the 10th Multi-GNSS Asia (MGA) Conference will be held in **Melbourne, Australia, 23rd-25th October 2018**, jointly organized by RMIT (Royal Melbourne Institute of Technology), Geoscience Australia, FrontierSI (formally the Australia and New Zealand Cooperative Research Centre for Spatial Information (CRCSD)), IPNTJ (The Institute of Position, Navigation and Technology Japan), QSS (Quasi-Zenith Satellite System Services Inc) and GNSS.asia.

Multi-GNSS Asia (MGA) is an international cooperative initiative endorsed by the United Nations International Committee on GNSS (ICG) to promote cooperation and utilization of satellite positioning, navigation and timing services in Asia and Oceania.

International organizations, government agencies, companies, universities and research institutes with interest in the utilization of multi-constellation GNSS are especially welcomed to participate and to contribute to this conference.

Updated information such as agenda, registration and so on will be made available on our website: <https://2018.mgaconference.com.au/> as well as <http://www.multignss.asia/>

We are looking forward to seeing you in Melbourne. Let's get together for the best utilization of GNSS technology.

Should you require further information, please feel free to contact us at secretariat@multignss.asia

Sincerely yours,
MGA Secretariat
June 2018
